Chelsea Dark Gray is a fine grained, smooth textured roofing slate and a member of North Country Slate's discerning "Chelsea Slate" product line. This beautiful, rich, dark gray roofing slate, with subtle variations in shade and veining, offers designers and building owners a high quality, durable and beautiful natural slate roof at an economical price.

Chelsea Dark Gray exceeds the requirements of an ASTM S-1 rated roofing slate. Testing is performed by a National Slate Association recommended laboratory and test reports are available on request.

Characteristics of this slate include a rich and pleasing dark gray color, a smooth textured surface, cleanly trimmed edges, uniformity of thickness, exacting dimensional tolerances, machine punched nail holes and ease of field trimming during installation. Chelsea Dark Gray is an excellent choice for residential, commercial or institutional projects in new construction, re-roofing or restoration.
