Chelsea Gray/Green is a fine grained, smooth textured roofing slate and a member of North Country Slate's discerning "Chelsea Slate" product line. This beautiful light gray/green roofing slate, with subtle variations in shade and veining, offers designers and building owners a high quality, durable and beautiful natural slate roof at an economical price.

Chelsea Gray/Green exceeds the requirements of an ASTM S-1 rated roofing slate. Testing is performed by a National Slate Association recommended laboratory and test reports are available on request.

Characteristics of this slate include a pleasing light gray/green color, a smooth textured surface, moderate trimmed edges, uniformity of thickness and exacting dimensional tolerances. Chelsea Gray/Green is an excellent choice for residential, commercial or institutional projects in new construction, re-roofing or restoration.
